HALL & FOREMAN, INC. SELECTED TO PROVIDE CONSULTING SERVICES FOR LOS ANGELES WORLD AIRPORTS

IRVINE, Calif., September, 2005 — Hall & Foreman, Inc. (HFI) has been selected by Los Angeles World Airports (LAWA) to provide professional subdivision planning, environmental, and engineering services for the Palmdale Regional Airport reversion of acreage project.

The scope of work will include coordination of surveying and mapping services to facilitate the finalization of Parcel Map No. 24419. The purpose of the map is to consolidate approximately 2,000 existing taxable lots into 54 traditional-agricultural lots on a 17,750-acre site. This project will also require field surveying services to establish boundaries of the parcels; review and plotting of a substantial number of easements; and the creation of the recordable parcel map document. HFI has teamed with Geomatics Transportation Services, Inc. of Tustin to provide the mapping.

“HFI is very pleased to have been chosen for this project. With team work, determination, and excellent customer service, we will exceed the expectations of all parties involved with the Palmdale Regional Airport,” stated Steve Shambeck, V.P. of Surveying and Mapping.

Founded in 1961, HFI specializes in civil engineering, land planning/development, land surveying, entitlement coordination, infrastructure funding, investigative

engineering, municipal/public works, surveying and mapping, and landscape architecture services. With offices in Irvine, Rancho Cucamonga, Temecula, and Woodland Hills, HFI serves public and private clients on a variety of projects throughout California and Southern Nevada.

For further information about HFI's services, please contact Kelly Teenor at 714-665-4500, or visit <http://www.hfinc.com>.
