**A FASTEST GROWING FIRM FINDS A BETTERWORLD**

*Hall & Foreman, Inc. relocates to new office to make room for more employees*

IRVINE, Calif., January 10, 2006 - Hall & Foreman, Inc. (HFI), an engineering, planning, surveying, and landscape architecture firm, is pleased to announce the relocation of its Riverside County office. The new 11,000-square-foot, two story facility located at Three BetterWorld Circle is centrally located in the prestigious Garrett Corporate Center just off Interstate 15 on Rancho California Road and Ridge Park Drive in Temecula, Calif. When fully staffed, HFI's new office will hold 50-plus employees including supporting field surveyors.

HFI's principal and president of the Temecula division, Anthony J. Terich, P.E. stated, "HFI is excited about the move. In this new facility, we will be able to increase our staffing in order to continue to meet the needs of our clients in the Riverside County and Temecula Valley area."

The business center is strategically located to provide access to the clients HFI serves and the projects in the region. This move signals another milestone in HFI's expansion. In 2004, HFI relocated its Los Angeles/Ventura division office to a larger facility in Woodland Hills. In 2005, HFI expanded its Rancho Cucamonga office to accommodate the growth in the area as well.

"We are very proud of the success of our firm. The hard work and dedication of our employees contribute to the fact that we are successful," stated John Hogan, P.E., HFI's chief executive officer and principal. "We will celebrate the new Temecula office with an open house on February 9."

HFI is ranked as the 21<sup>st</sup> fastest growing architecture/engineering/planning and environmental consulting firm in the United States according to the Zweig Letter's Hot Firm 2005 list. Additionally, the firm is ranked by CENews as the #5 Best Civil Engineering Firm to Work for in the country.

Founded in 1961, HFI specializes in civil engineering, land planning/development, land surveying, entitlement coordination, infrastructure funding, investigative engineering, municipal/public works, surveying and mapping, and landscape architecture services. With offices in Irvine, Rancho Cucamonga, Temecula, and Woodland Hills, HFI serves public and private clients on a variety of projects throughout California and Southern Nevada.

For further information about HFI's services and office location, please contact Kelly Teenor at 714-665-4500, or visit <http://www.hfinc.com/>
