## **HALL & FOREMAN, INC. RELOCATES ITS CORPORATE HEADQUARTERS**

SANTA ANA, October 23, 2002 — Hall & Foreman, Inc. (HFI), a civil engineering, land planning, surveying, and public works firm, is pleased to announce the relocation of its Corporate Headquarters from Santa Ana to Irvine, California. The new 14,859 square foot facility leased from The Irvine Company is centrally located in the Irvine Technology Center adjacent to the Tustin Marketplace at 420 Exchange, Suite 100, Irvine, California 92602.

HFI's Principal and President of the South Coast Division, Jon Bourgeois, P.E. stated, "HFI is ecstatic about our move to Irvine. In this new facility, we will be able to expand our staffing to meet the needs of our clients. This enables us to meet our anticipated future growth."

"Irvine is a strategic location for providing access to the clients we serve and the projects we coordinate in the Orange County area. This move signals another milestone in our expansion in Southern California. In September, HFI relocated its Inland Empire office to accommodate the growth in that area. We are very proud of the success of our firm," stated John Hogan, P.E., HFI's Chief Executive Officer and Principal.

Founded in 1961 and ranked as one of Orange County's top thirty engineering firms for 2001, according to the Orange County Business Journal's September issue, HFI specializes in commercial and retail, entitlement coordination, industrial/office/institutional, infrastructure funding, investigative engineering, land planning, municipal/public works, residential/land development, and surveying and mapping services. HFI's total workforce expands to more than 100 employees to serve clients on a variety of projects throughout California and Southern Nevada.

For further information about HFI's services and office location, please contact Kelly Teenor at 714.665-4500, or visit <http://www.hfinc.com/>
