## **HALL & FOREMAN, INC. CELEBRATES 200th EMPLOYEE**

IRVINE, Calif., September 19, 2005 - Hall & Foreman, Inc. (HFI), an engineering, surveying, planning, and landscape architecture firm, recently celebrated the hiring of its 200th employee.

The milestone was commemorated with a celebration for employees in all offices. The firm's 200 professionals are based in four offices, located in Irvine, Rancho Cucamonga, Temecula, and Woodland Hills.

John Hogan, P.E., HFI's chief executive officer and principal noted, "HFI's vision is to grow and be the company of choice. We strive to create value for our clients while offering a stimulating and rewarding work environment for our employees."

HFI serves clients ranging from developers and builders to cities and counties. In the last three years, HFI has doubled its revenue while maintaining a steady employee growth rate to support the influx in work.

"Southern California continues to be an appealing place to live and to work so population growth and job growth are expected to continue," Hogan said. "These are two key indicators that affect the outlook for the firm's future."

Founded in 1961, HFI specializes in civil engineering, land planning, land surveying, entitlement coordination, infrastructure funding, investigative engineering, municipal/public works, surveying and mapping, and landscape architecture services. HFI serves public and private clients on a variety of projects throughout California and Southern Nevada.

For further information about HFI's services and office location, please contact Kelly Teenor at 714-665-4500, or visit <http://www.hfinc.com>.
