HALL & FOREMAN, INC. RELEASES EDUCATIONAL BROCHURE

Local engineering consultant publishes ALTA & Pre-Design Surveys Brochure

Irvine, Calif., December 19, 2005 - Hall & Foreman, Inc. (HFI), has published an informational brochure that explains important aspects of the American Land Title Association (ALTA) survey.

As described in the brochure, an ALTA survey is a boundary, title, and improvement location survey wrapped into one. The ALTA survey provides information needed to evaluate the technical viability and value of a property or project.

Steve Shambeck, P.L.S., vice president of surveying/mapping and principal said, "The ALTA & Pre-Design surveys are a vital component of the acquisition and development process. This brochure gives attorneys, lenders, title companies, and professionals in the real estate business a better understanding of the uses for ALTA and Pre-Design surveys."

Contact HFI at info@hfinc.com or 800.544.2114 to request a copy of the brochure.
