**HALL & FOREMAN, INC. ANNOUNCES
ROBERT BRANDOM, P.E., as PROJECT MANAGER**

TUSTIN, Calif, April 5, 2011 – Hall & Foreman, Inc. (HFI), a civil engineering, land planning and surveying firm, announced the addition of Robert Brandom, P.E., as water resources project manager. Mr. Brandom joins HFI to expand the firm's [water resources services](#).

"Bob's extensive water and wastewater experience augments HFI's water resources capabilities and business. His technical abilities and knowledge of our regional public works and private clients are key to the growth of HFI," states Jon Bourgeois, P.E., HFI's executive vice president and director of public works.

Mr. Brandom holds a Bachelor of Science degree in engineering from the University of Houston and a Bachelor of Science degree in advertising with a minor in journalism from the University of Texas. He is a member of the American Public Works Association. Mr. Brandom has managed and designed pipelines, sewers, reservoirs, wells, pump stations, lift stations, and other system infrastructure projects throughout southern California. His portfolio of experience also includes water, recycled water, and sanitary sewer master plans, urban water management plans, water supply assessments, well and reservoir siting studies, sewer inflow and infiltration studies, sanitary sewer management plans, sewer/lift station feasibility studies, and recycled water system feasibility studies.

**Robert Brandom, P.E.
Project Manager**
